

OLE VIRGINIA TIMES

June 2016

Next Meeting: Monday, June 20, 2016

PRESIDENT'S LETTER:

Greetings one and all! Once again, we stand with very heavy hearts and sadness as we say farewell to a dear friend, fellow HAM, mentor, OVH Vice President, and numerous other titles, Clarence Meese / K4CNM who recently passed away suddenly and very unexpectedly by all. I doubt anyone could recite all the ham and OVH activities that Clarence had a hand in — OVH VP, BBHN, MARS, ARES, Marine Corp Marathon support, Convoy On The Air Chairman, and of course, support to the OVH Hamfest/Field Day events. God bless you Clarence until next we check into your net. Please enjoy the richness of his memory elsewhere in this newsletter. For those who will be around midday on Friday, June 17th, there will be a final viewing and services for Clarence, details have been on the OVH email reflector.

As I draft this letter, it is my belief that the best honor we can bestow on Clarence is to pick up where he left off — at least as best we can. That said, I think about how I am so honored to be among those who are marching on dedicated:

- to the upcoming annual Hamfest and all of its inner workings—Youth Lounge, gate attendance, club table, vendor coordination, and many other details; as of June 16th almost perfect weather is forecast for the Hamfest on Sunday!
- to the team supporting another George Mason Mini-Tri, concurrently with the Hamfest, with a new “Shadow”;
- to erecting antennas, tuning radios, getting visitors on the air, and the smell of grilled meat at our Field Day gathering. (All of the above on two weekends back to back!!!)
- and finally, to those who spend their “free time” continuing to enhance our repeater posture, working on the shed (especially the A/C!!) and soon, antennas.

All telephone numbers listed above are for Area Code 703 unless otherwise noted. This is the official monthly publication of the Ole Virginia Hams Amateur Radio Club, Inc., a §501(c)(3) organization, dedicated to the promotion and enhancement of Amateur Radio. Copyright © 2016 by the Ole Virginia Hams.

The OVH ARC regular monthly meeting is at 7:30 p.m. every third Monday which is held in the Main Conference Room in the Manassas Public Works Building, 8500 Pubic Works Drive, Manassas, Virginia. Members, prospective members and other interested persons are invited to attend without obligation. Local information can also be obtained through the OVH's FM repeaters on 146.970-, 224.660-, 442.200+ and 443.500+ MHz. The OVH's two D-Star repeaters on 146.865- and 442.5125+ MHz are temporarily off the air due to maintenance work beyond the OVH's control. Up to date information about OVH activities and its meetings is also available during the OVH's nets on its FM Repeater each Thursday night at 8:00 p.m. or on 80 meters (3710 KHz) LSB each Sunday night at 7:00 p.m. (8:00 pm in Summer) or through the OVH's web site at <http://w4ovh.net>

Articles and quotations in the OVH Times newsletter may be reprinted if credit is given to the OVH ARC and any other noted source. Proposed materials for publication including pictures, articles, letters to the editor, classified ads, notes about specific errors, complaints or the like are solicited from all readers. Forward such items to the OVH Times Newsletter Editor: PAUL@W4ZB.COM as soon as available at any time, but the cutoff deadline for the OVH Times each month (usually the second Monday of the month) may preclude publication/correction until the following month.

Approx. Circulation - 170.

Last Rev: 20160504

Much like the George Mason Mini-Tri, but on a larger scale, the first Prince William Half Marathon, slated for September 25th, is now in the early planning stages and OVH has been approached to provide communications support. An early estimate of 15 volunteers has been quoted. Stay tuned for additional information.

We are looking for candidates to assume the position of OVH VP for the remainder of the year. If interested, let us hear from you; tentative elections at the July meeting.

I hope to see you at our upcoming June 20th meeting during which the OVH will present its 2016 scholarship to a deserving Prince William county student; have a debrief on and discussion about the by then just completed 2016 Hamfest, and go over the last minute preparations for the upcoming Field Day event.

Don't forget, 7:00 pm at the Manassas Public Works, 8500 Public Works Drive, Manassas, Virginia. Keep the thoughts/ideas coming. See you there!

73 Wayne N7QLK at email: N7QLK@ARRL.NET

Sunshine Corner:

Celebrating another year – Happy Birthday during this June for OVH members Jan / KE4TMW, Emma / NoCall, Steve / N4OGR, Derrick / KV4SH, Doris / KI4DAL, Rosemary / KI4SND, Wayne / AG4ZZ, Gene / N4HFW and Bob / K4HJF.

Well I thought May was pretty busy for the OVH, but June will top May by a lot! By the time this newsletter goes to print, our Hamfest will just be a day or so away. Thank you to Terry KC4DV for being our chairperson again this year. Thanks also to everyone else who has worked with Terry and volunteered to help out with the Hamfest itself; your support is greatly appreciated. Here is hoping we will have wonderful weather and great attendance at the Hamfest on Sunday, June 19th!

It's with a heavy heart that I have to type this paragraph, as just about everyone has heard, Clarence Meese / K4CNM is now a silent key. His untimely death came suddenly and unexpectedly and was and still is shock to everyone who knew him; we will all miss his friendship and leadership. Clarence was voted into the club August, 2010; then he was about to be retiree and a fairly new ham, but one who had already gotten the top Extra Class license. He immediately became very active in many facets of the ham radio hobby - technical, operating and public service. He was elected Vice President in February, 2013 and he served very actively and enthusiastically as OVH's VP and in many other capacities until his death. He had been an active Thursday night VHF net control for sometime; last Thursday his name was on the roster; I ran the net and want to thank everyone who checked in and shared their thoughts and memories of Clarence with us. We will all miss him.

On a happy note, congratulations to Stu / W4PR on his son's wedding this coming weekend. Best wishes to the happy couple.

Also, special thanks to David / KG4GIY for taking over OVH's support for the Mini-Tri for this coming Sunday morning. Clarence was putting together the volunteers for that when he died, and David stepped up to make sure the course is covered.

Continued on page 4

Thanks to John / KG4NXT for his program on the Arduino VFO at the May meeting! He enjoyed working on the project and preparing and giving his talk at the May meeting. See the picture to the right on this page. For those who missed the meeting, details and John's slides from that presentation will be posted on the OVH's web site shortly.

If you participate in a ham event or take your radio on vacation, please send me a photo for the newsletter.

Please email me with your news!
Email me at kg4tvm@hotmail.com

73 Theresa KG4TVM

Minutes of the Ole Virginia Hams Amateur Radio Club Meeting May 16, 2016:

OVH Club President, Wayne / N7QLK, called the meeting to order at 7:00 pm on May 16, 2016. The early start time was due the pending volume of business.

The meeting was held at the Manassas City Public Works Building in Manassas, Virginia. After the Pledge, all present stated their names and call signs. There were twenty-five OVH members and three guests present.

Presentation: John KG4NXT gave a presentation on his Arduino Based VFO project consisting of slides, talk, demo of the hardware & software and Q&A.

BUSINESS MEETING

Minutes from the April 2016 meeting were sent out in the May 2016 OVH Newsletter. Motion to accept April's minutes by Al / KB4BHB, and Maury / W4HYB, seconded the motion; motion passed.

Treasurer's Report – Terry / KC4DV gave the report. Motion by Jeff / WB6UIE, to approved the Treasurer's report as presented. Ray / KM4EKR, seconded the motion. Motion passed by vote of all members in attendance.

Membership – There was one new member application this month. Luther / KJ4FDK, read in Richard / WN7S who will be voted upon next month. Membership applications from the following two individuals, Ken / KE2N and Jeff / KB4MKL had been read in during the April meeting. A secret ballot was held and both were voted both in as new OVH members.

ARES – It was announced that there would be a meeting the following Saturday at the PWC Emergency Operations Center.

Cont'd on page 5

Repeaters - George / K4GVT reported that the repeaters were “working nicely” and that the insulation work on the new shed at Mt. Pone had been completed. Next steps will be to install the HVAC equipment, and then antennas on the water tower.

Training - Mark / WA4KFZ held a successful “What Next?” class for all new and recent licensees on May 10th.

Hamfest – Terry KC4DV reminded every one that the Hamfest was a month away. Still needed volunteers for the consignment table and the security detail On Saturday morning, 18 June, OVH members will meet at the Liberia ChikFilA for breakfast and then head over to the PWC Fairgrounds to setup for the Hamfest. The Hamfest will start early on Sunday morning, Tailgaters, etc. allowed in at 6:00 am. Clean up after the Hamfest will be at 3:00 pm on Sunday. The Volunteer Dinner will be at a local restaurant after the clean up.

Field Day - The OVH Field Day event will be at the Pavilion at the Nokesville Community Park again this year, on Saturday and Sunday, one week after the Hamfest weekend. The application to the Park has been submitted, approved and paid. Assignments have all been made. The next Field day meeting will be announced on the reflector.

Sunshine Corner – Theresa wished all those with birthdays in April a Happy Birthday, including, especially, Terry / WA5NTI and John / KG4NXT.

Scholarship - The scholarship recipient for OVH’s 2016 Scholarship award will be announced, and the scholarship will be awarded at the June 2016 meeting.

Web page - Paul / W4ZB reported both web sites [W4OVH.NET and ManassasHamfest.org] were both working.

4-H – Terry / WA5NT, reported that more demonstrations have been added to the Youth Lounge program to be put on during the Hamfest; as a result, he is looking for more volunteers to assist in the Youth Lounge. .

Old Business: The two old OVH generators have been sold.

Al / KB4BHB reminded everyone that he makes lead weights for shooting lines into trees.

New business - Old equipment for sale

Robert Bethman / N0DGN has donated various items of equipment to the OVH in exchange for a one year membership. The equipment includes: HRO-50-T1 with a matching speaker, Coilsets: A B C D & AC and an Amp Supply LK-500ZB HF amplifier which includes two 3-500Zs.

Break

50-50 - \$21.00 was raised so the winner would receive \$10.50. John KG4NXT, won the drawing and donated all of the funds back to the club..

BBHN - Ken / KE2N reported there had been a BBHN meeting at the

Cont’d on page 6

Central Library the previous Saturday which had been organized by Clarence / K4CNM.

Motion to adjourn by John / KG4NXT, seconded by Terry / WA5NTI; motion passed.

Reminders about some upcoming events / calendar dates:

UPCOMING HAMFESTS:

Sunday, June 19, 2016 - Manassas Hamfest. See flyer later in this Newsletter, also check out <http://manassashamfest.org> and <http://w4ovh.net> (Hamfest tab) for more information and details.

Fri - Sun. June 24 - 26, 2016 - Ham Radio at Friedrichshafen - this Hamfest in Germany is almost as big as the one in Dayton! More info at <http://www.hamradio-friedrichshafen.de/ham-en/>

SPECIAL HAM RADIO EVENTS:

Sat. / Sun., June 25 - 26, 2016 - OVH / ARRL Field Day Event at the Nokesville Community Park, Nokesville, VA. This is a major OVH Club event! See flyer later in this Newsletter. Plan to attend! The OVH Newsletter for May 2016 had basic information and sources about Field Day for new hams who have not participated in a Field Day before.

Third Thursday evening each month - AMRAD meets in McLean, Virginia - meetings usually consist of high level amateur radio related technical presentations on specific topics. Check the <http://amrad.org> web site for upcoming topics, and exact dates, times and places.

HAM RADIO OPERATING CONTEST EVENTS:

The ARRL has a Contest web page at its web site, but a much more comprehensive, up-to-date, and long range planning contesting calendar with links to the rules for the various events is maintained by WA7BNM at <http://www.hornucopia.com/contestcal> If you get the radio contesting bug or just want to find out what and how much is going on, that is a good place to look!

PUBLIC SERVICE / TRAINING / ARES EVENTS

Always check the online Calendar by David / KG4GIY at <http://www.pwcares.org> for the latest updates. David maintains a comprehensive calendar for upcoming events at that web site. Complete direct contact information for David appears on page 2 of this Newsletter.

REMEMBERING CLARENCE / K4CNM

First, as Clarence's family wished him to be remembered from his funeral home obituary:

Clarence Nelson Meese, Jr, 69, entered his Heavenly home, Sunday, June 5, 2016, at Novant Hospital in Manassas. He had been married to his high school sweetheart, best friend and soulmate, Darlene (Bane) Meese, for 48 years. He is also survived by daughter, Nicole Meese MacCorkle and husband Matthew, and a granddaughter Chloe Nicole MacCorkle of Woodbridge, Virginia. He was a graduate of Keyser High School and West Virginia Institute of Technology. Clarence retired from the US Army, after 40 years, in December 2011. Throughout his career, working as a Civilian Engineer, he was fortunate enough to work as a Quality & Reliability Engineer in Research & Development; Product Assurance & Test Engineering Manager helping in the development of some of the Army's greatest defense systems, the Patriot Missile; Abrams Tank; & Solider Warrior.

He ended his career working as Logistics and Test Engineering Manager, Soldier Warrior, Ft. Belvoir, VA. He deployed to Iraq in 2007 while Logistics & Test Engineering Manager for Soldier Warrior. Upon retirement, he began his second career as Regional Operations Officer for Department of the Army Military Auxiliary Radio System, (MARS), organizing all of the communications assets for MARS through 5 states that make up Region 3, (VA, WV, DE, MD & DC, PA). With MARS, he was known as AAA3R3 and AAR3FE. An avid Ham Radio enthusiast, he was Vice President of the Ole Virginia Hams (K4CNM) and was a member of Woodbridge Wireless (K4CNM), where he ran Broad Band Ham Net. He was also OMISS 75m SSB Early Net Control Coordinator. He recently achieved his Master's Degree in The 3905 Century Club, Inc., an international amateur radio club (No. 70). He was a member of Manassas St. Thomas UMC and a lifetime member of the NRA. His most important job after retirement was being "Paw" to the light of his life, Chloe, his five year old granddaughter. The family will receive friends Friday, June 17th, 2016 from 11:00 a.m. – 12:00 p.m. at Prince of Peace United Methodist Church, 6299 Token Forest Dr., Manassas, VA 20112. Funeral services will immediately follow at 12:00 p.m. in the church sanctuary. Interment will follow in Stonewall Memory Gardens, Manassas, VA. Please sign the guestbook at www.bakerpostfh.com.

Next, as the Prince William County 4-H Community has remembered him::

The Prince William 4-H community was saddened to hear of the passing of Clarence Meese, Sunday, June 5, 2016.

Clarence was a project and club leader with Buckhall Community 4-H Club. As one of the club founders and leaders, Clarence helped to establish Ham radio as a project in Prince William 4-H. Clarence was a patient and thorough educator and will be missed by the youth and adults who have worked with him over the past few years.

The family will receive friends Friday, June 17th, 2016 from 11:00 a.m. – 12:00 p.m. at Prince of Peace United Methodist Church, 6299 Token Forest Dr., Manassas, VA 20112. Funeral services will immediately follow at 12:00 p.m. in the church sanctuary.

Cont'd on page 7

Next, as Clarence described himself in the March 2013 OVH Newsletter:

Spotlight on Members

This month: Clarence / K4CNM

I gave up my day job in early December 2011 after forty years as a civilian engineer for the US Army. Since that time I have divided my time among home projects, ham radio, and my two-year old granddaughter. (The picture to the left below also shows my wife, Darlene and my granddaughter, Chloe.) By far Chloe is the most enjoyable of the three and all time spent with her is very rewarding.

I am a fairly new ham, having become a Technician in early 2010, and then upgrading to Extra Class about a month later. Having a BSEE helped with the studying needed! Although I'm relatively new, I've been interested in ham radio for many years; my father was in the radio TV repair business and got me interested when I was quite young. I built a Lafayette Radio KT-200 shortwave receiver kit and became an SWL in the late 1950's.

Even though I started late in this hobby, I've jumped in enthusiastically to make up for lost time: my ham radio activities so far include participation in Army MARS for about fifty hours a month, checking into 3905 Century Club nets several evenings a week, involvement with Prince William ARES, and, of course, with the OVH for which I've just been elected to serve as Vice President.

Some of my other ham activities during the past five months also include being assigned as the operator at a particular mile marker during the Marine Corps Marathon on 28 October, serving as NCS for six MARS nets during Hurricane Sandy for the period 29-30 October, helping at the Mini Tri It on 11 November, and assisting with the Manassas Christmas parade on 1 December and the Manassas Park Light parade on 8 December, getting my ARRL VE credentials in January, and attending both Frostfest in Richmond and Winterfest in Annandale during February.

The most extensive recent home project was buying a portable generator big enough to power the whole house - except, unfortunately, for the electric furnace (45 kW needed if the heat pump can't provide enough heat). That project included getting a 200 amp manual transfer switch complete with watt meters put in. We have been really stuck when electricity has gone out for several days at a time due to heavy snow and high winds because we have a well and septic system - hopefully no more! It's also nice to have lights when the rest of the neighborhood is dark. Next I plan to expand the portable power to the detached garage via a couple of small transfer switches.

In addition to serving as the OVH vice president in 2013, I plan to repeat most of the events listed earlier and also provide assistance at the 50 Mile Bull Run Run, at the Mini Tri runs, and at the OVH Hamfest and Field Day in June. Most of these endeavors will continue to improve my skills as a ham radio operator, I hope.

If after this introduction, you still want more information or details about me or my ham equipment, check me out (K4CNM) at QRZ.com; eMail: cmeese@comcast.net; Cell: 703-501-8929, if I can lend a hand with something.

And finally, as the OVH and various of its members remember Clarence / K4CNM:

Although Clarence was not a ham for a very long time compared to many others in the OVH [he was first licensed in 2010], he embraced the hobby and many of its many aspects in his “retirement” with a real passion, persistence, interest and activity level which everyone who interacted with him noticed immediately. He seemed to have endless energy and enthusiasm for the hobby; his interest in the hobby had been long standing from the time he put together a Lafayette KT-200 Shortwave Receiver kit in the late 1950’s to be a SWL; his early experiences with radio as an SWL doubtlessly influenced him to get a BSEE degree and then his later professional career; as a new ham in 2010 he quickly went from being a Technician Licensee to an Extra Class Licensee - which demonstrated his desire to be knowledgeable and to excel. As a ham he was interested and active in ham radio public service activities [including ARES and MARS], working with youngsters to interest them in science and the ham radio hobby [JOTA/Boy Scouts and 4-H], operating radios to talk with other ham operators, participating in radio operating contests and organized radio nets, building and customizing radio and other electronic equipment, participating in and organizing meetings on technically advance matters [BBHN, VHF/UHF repeater coverage studies], participating in OVH club events, becoming a leader in the OVH. He was recognized by everyone in the OVH as the “go to guy” who could always get something organized, set up, accomplished and done well without B.S. when others were unable or unwilling to step forward. Notwithstanding all of his organizational talents, creativity, technical knowledge, and his “let’s do it and get it done” attitude which he brought to the OVH, he was soft spoken, modest, unassuming, friendly, easy to get along with and liked by everyone who knew him. His untimely and unexpected passing at such a young age (69) is very sad; we will all remember him and miss him very much.
