

SDR Receiver

sdr play RSP1

Al Dugas and John Heartney

January 16, 2018

High level View

- Small box covers 1Khz to 2Ghz with no gaps
- Has 14 bit SDR – RTL-SDR has only 8
- Add antenna, USB cable (type B) and computer software
- Multiplatform – Window, Linux , Mac, Rasperry Pi, Android, Arm64
- Software supported includes SDRUNO, HDSDR, SDR-CONSOLE V3.
- Our demo uses SDR-CONSOLE V3
- Can be easily SMOKED if near active transmitter
