JUNE 1990 ISSUE

FROM THE PRESIDENT'S SHACK

OVH FIELD DAY

I would like to take a moment and thank all of the club members that spent their weekend to make the 1990 Hamfest one of the best. Attendance was up and the flea market area did the same. We will critique the Hamfest at our next meeting, so please come and put your comments in so we can make the next Hamfest bigger and better.

We also have Field-day on June 23rd and 24th, this will also be discussed at the upcoming meeting. I will keep this short due to the newsletter only being a signal page. In July we should be back in full swing when Bonnie (N4QPB) returns. 73s

Joe (AB4QV)

1990 Hamfest

Just a quick note about the 1990 OVH Hamfest, attendance was over 3000 and Tailgaters was almost 500 spaces. This is up from last year and the year before. The WX was great, and whoever was incharge of thunderstorms did a magnificent job in holding them off until the clean-up was over. Just remember the 1991 OVH Hamfest is only 50 weeks away, so lets make it the best ever.

This year our field day site will be the same as last year, James C. Long Park. This is located on Rt. 15, just south of Rt. 234 (a mile or two). We will be using the call, N4FS, and will be operating in the category of 2A. We will keep two stations operating along with a Novice station. The power will come from our faithful generators (we will miss the old green machine that would generate more RFI than watts and weighed a ton) and the antennas will be a Tri-bander with some wire put up by our secret weapon N4HFW. Please come out and join in the fun, the Bar-B-Que is great and we even manage to make a few contacts. Setup will start at 10:00 AM Saturday and we should be on the air by 2:00 PM. See you there.

UPCOMING CALENDER
